AUCTION CATALOGS

MANUSCRIPTS
Citations of manuscripts usually appear only in the footnotes, not in the Reference List. The format is (if applicable): Creator, Specific item, Date, Collection names(s), ms./catalogue number, page/folio/folder number, depository.

1 Minutes of the Committee of Correspondence, 1719–1727, December 12, 1721, Minutes and Memoranda etc. of General Committees and Offices of the East India Company, 1700–1858, India Office Records, IOR/D/18, f. 62v, British Library.

If there are multiple references to a particular collection, an abbreviation sometimes appears in the Reference List. For example, if multiple documents from the collection in footnote 1 above are cited, the Reference List could include an entry:

Minutes and Memoranda = Minutes and Memoranda etc. of General Committees and Offices of the East India Company, 1700–1858, India Office Records, IOR/D/18, British Library.

In that case, the note would be briefer:
1 Minutes of the Committee of Correspondence, 1719–1727, December 12, 1721, Minutes and Memoranda.
